

RSPN's outreach now stands at over 4.3 million households. This unfolding of its reach beyond previous limits occurred in the midst of important developments. The USAID funded Small Grants and Ambassador's Fund Programs, and the Assessment and Strengthening Program successfully carried through their first years. The RSPN implemented Pakistan Domestic Biogas

Programme set up its

1000th biogas plant. With new funding from USAID, the RSPN implemented Bahaal project extended its assistance work into the 2011 floods.

RSPN finished constructing **33 micro infrastructure projects** in flood affected Swat, with funding from the American Pakistan Foundation. A significant **national conference**

on drinking water, sanitation and hygiene promotion was convened by RSPN in partnership with UNICEF and the Planning Commission. These various threads suggest not only the achievements of RSPN and its members RSPs but also future possibilities, for transforming the lives of millions of rural Pakistanis...

Completion of the 1,000th Domestic Biogas Plant in Pakistan Celebrated

14 July 2011 - The Pakistan Domestic Biogas Programme (PDBP) celebrated the completion of the 1,000th biogas plant in Pakistan. Mr. Sohaib Sultan Khan, Chairperson RSPN, together with the biogas plant owner, inaugurated the 1,000th plant in the Sargodha district of Pakistan. Programme partners from Winrock International, government agencies, SNV and RSPN were present, along with Biogas construction companies and local community members. RSPN implements PDBP with financial support from the Embassy of the Kingdom of the Netherlands and technical support from SNV, a Dutch organization, and Winrock International. In 2007, Winrock and SNV conducted a feasibility study that revealed the technical potential for 5 million domestic biogas plants in Pakistan. PDBP was designed with a vision to create a commercially viable domestic biogas sector in Pakistan, with an installation target of 300,000 biogas plants in 10 years. These plants supply biogas to households for cooking and lighting, and offer multiple benefits related to energy, health and sanitation, agriculture, employment and the environment.

National Conference Discusses Policies and Strategies on Drinking Water, Sanitation and Hygiene Promotion

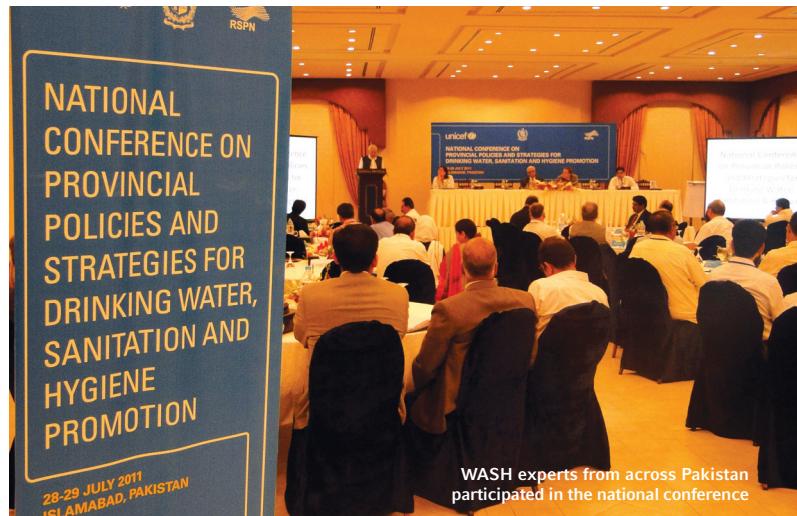

28-29 July 2011 - RSPN, in partnership with the Planning Commission and UNICEF, conducted the two-day "National Conference on Provincial Policies and Strategies for Drinking Water, Sanitation and Hygiene Promotion." The chief guest at the event was Dr. Ishfaq Ahmad, Advisor to the Planning Commission. The conference also featured Mr. Dan Rohrmann, UNICEF's Country Representative and Ms Shandana Khan, CEO RSPN.

It is estimated that water, sanitation and hygiene related diseases cost Pakistan's economy about Rs. 112 billion per year. About 1,100 children die daily in Pakistan due to poor sanitation and waterborne diseases. The purpose of the event was to share the main features of the drafted provincial policies and strategies on water, sanitation and hygiene, and to arrive at a unified vision that will lead to a more effective and harmonised approach throughout the country. This national conference worked to agree on a roadmap and a framework for action in each of the provinces, to pursue more objectively the preparation of the relevant policies, strategies and action plans.

USAID's Small Grants Program and the U.S. Ambassador's Fund Program Complete One Year

August 2011 - USAID's Small Grants Program and the U.S. Ambassador's Fund Program have successfully completed their first year. The ensuing one year period witnessed two innovative projects being approved under the USAID's Small

Grants Program amounting to \$500,000, and 30 stand-alone projects approved under the U.S. Ambassador's Fund Program, amounting to \$2.5 million. These approved projects involve work and activities for the betterment of Pakistan's future through supporting grassroots development. These projects variously include the provision of shelter for 150 flood-affected orphanage girls in Swat, the establishment of 3 vocational centres in Punjab for women's economic growth, and the construction of 175 bio-gas plants in district Dera Ismail Khan. NRSP is the prime contractor of USAID for both of these two five-year, countrywide programmes, while RSPN and KPMG TaseerHadi & Co Chartered Accountants are sub-partners of NRSP.

"You have in your hands a unique opportunity to reduce substantial negative impact on the economy by raising the quality of water and sanitation."

Mr Rohrmann affirming the importance of the conference's objective

USAID-RSPN's Assessment and Strengthening Program Completes One Year

September 2011 - The USAID funded, RSPN implemented Assessment and Strengthening Program (ASP-RSPN) has successfully completed its first year. Launched in October 2010 to build the capacity of vital local institutions in Pakistan, ASP-RSPN completed a variety of critical assignments in the following year. It completed the Third Party Validation (TPV) of Citizens' Damage Compensation Program (CDCP) in 39 districts, making it possible for both the government and donors to disburse cash grants amongst the 2010 flood affected households. Moreover, ASP-RSPN also completed the pre-award assessments of five for-profit organizations. The project also provided technical assistance to two USAID-funded

A beneficiary from the USAID-RSPN's SARP talking to the reporter from DAWN News

programmes in Sindh, the Municipal Services Delivery Program (MSDP) and the Sindh Basic Education Program (SBEP).

USAID-RSPN's Bahaal Project Provides Assistance to Communities Affected by the 2011 Floods

September 2011 - Having already assisted a total of 95,906 households across 16 districts in Pakistan's worst affected by the floods of 2010, USAID-RSPN's Bahaal project has received a \$100,000 extension to continue its flood relief and recovery work into the 2011 floods. Focusing now specifically on 3,500 households in southern Sindh, the worst affected area in the country, and providing assistance in the sectors of emergency shelter and WASH, the extended project will continue at least until November 2011. Bahaal's extension is part of the larger assistance effort USAID has launched in the affected areas of Sindh that will see 50,000 families provided with safe drinking water, shelter, sanitation and hygiene supplies, and basic health care.

In solidarity with the flood affected communities, the Director of the USAID mission in Pakistan, Mr. Andrew Sission visited Bahaal's operations in Badin, one of the areas worst affected by the current floods. "Response from the American people has been consistent with our humanitarian values and our deep commitment to Pakistan. The United States stands firmly committed to assisting Pakistani people in times of natural disasters", said the USAID official.

ISET-RSPN Project on Post-Floods Research Begins

September 2011 - RSPN, in partnership with ISET, has launched an 18-month research project that will generate knowledge on climate-related hazards in the Indus basin in Pakistan and

their impact on marginalized communities. This new knowledge will be used to identify the vulnerability of communities in terms of gateway services and access to these services, and to develop corresponding strategies to build disaster resilience.

Since the research will take place in different parts of Pakistan, RSPN will use the nationwide outreach of its member RSPs to coordinate the project across the country. RSPN will also ensure that the findings are disseminated to rural communities mobilised by the RSPs.

RSPN Expands its UNICEF-funded Polio Awareness Activities

September 2011- Following the successful completion of its Karachi-based efforts with UNICEF in June 2011, RSPN has now expanded its polio awareness initiative with UNICEF Sindh for three more months: September, October and December 2011. During these months, RSPN will work in 37 high-risk union councils in five districts of Sindh. RSPN is implementing this project in partnership with three RSPs i.e. NRSP for Hyderabad, SGA for Karachi and SRSO for Ghotki, Larkana and Jacobabad.

RSPN and its partner RSPs have already successfully completed their activities for the month of September. For this month's campaign, 890 women and men campaigners were enlisted, and in a period of ten days, 276,681 households from targeted union councils were made aware of polio and upcoming polio vaccination days. Polio awareness messages were also disseminated through a variety of other means, such as corner meetings, religious institutions, mega phone announcements, and cable channel advertisements.

RSPN's Flood Recovery Effort in Swat Successfully Concludes

September 2011 - RSPN's American Pakistan Foundation (APF) funded \$200,000 early recovery effort in the flood affected district of Swat has been successfully completed. The project saw 33 microinfrastructure projects constructed in the area, with included drinking water systems and sanitation, handpumps, link roads, irrigation channels, and street pavements. The project benefited 3,630 households, representing a population of 25,000. Swat was one of the worst affected districts of Khyber Pakhtunkhwa (KPK) in the August 2010 floods, where most of the infrastructure was either damaged or destroyed.

RSPN's member organization in KPK, SRSP, locally implemented work on these microinfrastructures while assuming a participatory approach: 33 male and female Community Organisations (COs) were created, that in turn worked with SRSP field engineers to help build or rehabilitate microinfrastructure in their respective communities. Earlier, on 21 July 2011, APF highlighted this project in a press event it held with the PepsiCo Foundation.

Mr. Andrew Sission, Director of the USAID mission in Pakistan, in Badin distributing assistance items to the flood affected

Photo by Keychain Films

“Working in partnership with local communities in Swat means not only giving them a basic service; it also means building amongst them trust and hope after the fear and insecurity they have been put through.”

Ms Shandana Khan, CEO RSPN, on the APF-RSPN Flood Assistance Project in Swat

Beneficiaries of USAID-RSPN Flood Assistance Meet the Press

22 September 2011 - Beneficiaries from across Pakistan, representing communities that have received flood assistance from three USAID funded, RSPN implemented projects spoke to the national media to highlight their recovery and to also emphasize the need for further assistance, not only for themselves but also for the affectees of the current, 2011 floods. The three projects represented were: the Emergency Relief project, the Bahaal project and the Sindh Agriculture Recovery (SARP) project. Representing over \$25 million in assistance from the American people, the three projects collectively benefited over 1 million flood affected Pakistanis. The projects provided both emergency relief and recovery assistance, ranging from food and non-food items, temporary and one-room shelters, agricultural and livestock inputs, and WASH (water, sanitation and hygiene) services.
