Overview

Government of Sindh (GoS) through its Planning and Development Department (PDD) is implementing a six-year multi-sectoral Sindh Accelerated Action Plan for Reduction of Stunting and Malnutrition (AAP), with the objective of reducing stunting rate from the existing 48 percent to 40 percent by 2021.

The European Union (EU), under the EU Commission Action Plan on Nutrition 2014, is supporting GoS in addressing the issue of malnutrition. The EU has approved the four-year Programme for Improved Nutrition in Sindh (PINS) to be implemented in ten districts of Sindh starting from February 15, 2018.

RSPN is leading the PINS Expected Results (ER) 3 component with four partners: Action Against Hunger (ACF), National Rural Support Programme (NRSP), Sindh Rural Support Organisation (SRSO) and Thardeep Rural Development Programme (TRDP). This component includes nutrition sensitive interventions i.e. Water Sanitation and Hygiene (WASH) and Agriculture & Food Security (AFS).

RSPN organized/led orientation workshop(s) for implementing RSPs at their respective PIUs. This document outlines the proceedings of the workshops. The agenda is annexed as Annex A, list of participants and definition of EU are annexed as Annexes B and C.

Proceedings of the Workshop

Welcome Note and Introduction

Each of the orientation workshops started off with a recitation of the Quran by a volunteer from the audience. After a round of introductions, the participants were familiarised about the objectives of the orientation and a brief overview of the Programme for Improved Nutrition in Sindh (PINS). They were told of its collaboration with that will be implemented in ten districts of Sindh in close collaboration with Accelerated Action Plan for Reduction of Stunting & Malnutrition in Sindh (AAP). These districts include Shikarpur, Thatta, Kambar Shahdadt, Larkana, Dadu, Jamshoro, Matiari, Sajawal, Tando Allahyar and Tando Muhammad Khan.

The facilitators later initiated activity pertaining to setting norms and highlight the expectations of the participants of the orientation workshop.

Mr. Ghulam Mustafa Jam, Regional General Manager, NRSP, Mr. Jai Parkash, Programme Manager, SUCCESS TRDP, Mr. Jamal Mustafa Shoro and Programme Manager, SRSO called upon respective sessions for opening remarks for the workshop.

They welcomed the newly recruited staff for PINS intervention and gave an overview on SUCCESS and UCBPRP programmes implemented in the respective districts. They also discussed that PINS will be using SUCCESS and UCBPRP as a base for implementing the ER-3 component.

The session was then focused on the three-tier social mobilization approach which is being used for the SUCCESS project. The facilitators discussed the origins of community organizations (COs), Village Organizations (VOs) and Local Support Organization (LSOs) and how they will be employed for the implementation for AAP and PINS. They explained that the COs, VOs and LSOs will perform the following functions:

- Provide a platform for effective community engagement for WASH and ASF
- Implementation and operation and maintenance of water related projects

The implementing RSPs' officials said that community support will be provided to AAP for the implementation of programme activities and highlighted the need for the Accelerated Action Programme given the severity of malnutrition and its socioeconomic implications, particularly in interior Sindh.

Overview of Accelerated Action Plan (AAP)

The PINS PMU team introduced the outline of the Government of Sindh's Accelerated Action Programme (AAP) for nutrition and discussed the local government departments that are involved in implementing the multi-sectoral intervention. A discussion followed which emphasized the need to ensure that there is synergy but no overlap between AAP, PINS and other nutrition related projects. The emphasis was that there is a need to integrate the toolkits of both projects and advised consolidating the program manual with the toolkit.

Overview of PINS

RSPN officials discussed partnership and collaboration amongst various organizations/institutions and the Government of Sindh to implement the three components of the project

and the role RSPN and RSPs for implementation of the activities under ER-3. Participants were explained how the PINS project is being implemented in close coordination with AAP. In terms of outreach, out of the ten districts that PINS is covering, AAP will cover 50% of the Union Councils while RSPN-PINS will cover the rest.

Conceptual Framework

For the session on conceptual framework for analysing the causes of malnutrition, the facilitator helped the participants brainstorm the basic causes at societal level, the underlying causes at household level, the immediate causes and outcomes. Participants were then told to identify the potential resources pertaining to technology, environment and people in connection with basic causes leads towards undernutrition/malnutrition. The facilitators discussed to let participants understand how the various activities of ER-1, ER-2 and ER-3 are linked to malnutrition. The pathways between agricultural food systems, WASH and nutrition were given special focus. The presentation also highlighted the importance of the first 1,000 days and the role of women in nutrition which justifies targeting children under 5 and pregnant and lactating women (PLWs) in Sindh.

Discussion on Implementation of WASH and AFS Related Activities

The team from RSPN facilitated the sessions with a group activity and divided participants into five groups with guidelines to identify and categorise the PINS ER-3 activities into water, sanitation, agriculture, livestock and fisheries related activities and then have a short presentation on them. Participants were asked to focus on the practical implications of implementing each activity to help them understand the scope of field work.

After the group activity, the WASH team delivered a detail presentation on WASH-related activities proposed in the Programme document. The facilitators discussed all the activities one by one with their practical implications, issues related to field (if any) and the way forward for its effective implementation in the targeted area. However, SUCCESS team members attended the session and shared implementation methodology under

SUCCESS programme enabling the participants to understand and get clarity on the implementation methodology under PINS ER-3 activities.

The sessions on agriculture and food security also discussed the programme document in detail while the participants provided their input and feedback for the AFS related activities. RSPN officials noted the input/feedback while discussing formats to be used in field activities. The participants suggested that the formats and annexures must be simple to fill as RSPs staff and CRPs have to use these formats during activities. The participants raised various questions during the discussion for further clarity on the activities such as 'Can an individual become CLEW if he has already been trained under different project(s) other than a government stock worker?' and 'There may be an issue with the selection of female CLEWs in certain targeted areas. What kind of alternatives can we look into?'

Overview of Organogram of PINS ER-3 and Roles & Responsibilities of its Staff

The facilitators from RSPN PMU/HQ conducted detailed sessions on role and responsibilities of RSPs' district staff. Job description of staff to be hired had been provided before the orientation workshop to review and understand the roles and requirement for job accomplishment. The facilitators further discussed and highlighted key activities to be carried on along with showing the organogram for their broad understanding.

Kickstart Activities at District Level under PINS ER-3

The RSPN team conducted a detailed session on the initial activities which are more important for now for field. These activities included:

- Dialogue with LSOs
- Orientation of LSOs
- Selection of WASH CRPs/Masons/Plumbers/Entrepreneurs
- Selection of Agricultural Entrepreneurs
- Selection of Poultry Entrepreneurs
- Selection of CLEWs
- Selection of Fish Farmers

Discussion on Knowledge Management Activities

The facilitators conducted sessions on knowledge management and reporting activities and designate the reporting mechanism and role from two-way approach. The session included;

- Documentation
- Knowledge Products

- Coordination Mechanism

The participants were also guided on the monthly, quarterly, annual reporting requirements and case studies.

Procurement and Financial Management Guidelines

RSPN team encouraged finance managers of RSPs to discuss the procurement and financial guidelines pertaining to PINS ER-3. Mr. Badar Ul Islam discussed EU compliance and guidelines at the session held for SRSO district staff.

Discussion on M&E Activities, Overall & RSP-wise targets of the PINS ER-3, Baseline, End-line Surveys and M&E Component of PINS

The M&E team facilitated the sessions related to monitoring and evaluation activities including district wise targets and role of district M&E staff for ensuring proper implementation of programme activities under PINS ER-3. The participants were explained M&E policies of RSPN and how they will be mainstreamed in PINS. These participants were notified that monitoring and evaluation should be impartial, useful, accountable, equal and credible. The M&E team also discussed the importance of evaluating impact through baseline, mid-line and end-line surveys and explained that the surveys will be conducted by RSPN and that technical expertise will be provided by an international organization that specializes in M&E.

Discussion on Communication and Visibility Activities

The PINS ER-3 team facilitators outlined the plan for effective communication, visibility and coordination with stakeholders. Participants were encouraged to maintain close coordination with their counterparts in GoS as well as the various implementation and technical partners of PINS. The special emphasis that participative and consultative approach ensures that all activities are implemented with input from key stakeholders, i.e. the government and the communities in particular, hence ensuring local ownership.

RSPs staff were guided to ensure the visibility of the activities and results of the programme to ensure that the learnings are taken up as a model for other development programmes.

Closing Remarks

Orientation workshop(s) were by the RSPN and RSPs officials and RSPs PINS ER-3 Staff wished good luck for the implementation of the PINS ER-3 activities. The participants were thanked their enthusiasm during orientation workshop(s) and for contributing for implementation of PINS ER-3 activities.

Participants Evaluations

The four orientation workshops have been organized at NRSP, TRDP and SRSO at their respective Programme Implementation Units (PIUs), a total of 82 feedback forms filled by the participants to collect quantitative and qualitative feedback regarding the orientation workshops. The summary shown in table below;

Annex C

Definition of European Union: The European Union is a unique economic and political union between 28 European countries that together cover much of the continent. The EU was created in the aftermath of the Second World War. What began as a purely economic union has evolved into an organization spanning policy areas, from climate, environment and health to external relations and security, justice and migration.

The EU is based on the rule of law: everything it does is founded on treaties, voluntarily and democratically agreed by its member countries. The EU is also governed by the principle of representative democracy and has delivered more than half a century of peace, stability and prosperity, helped raise living standards and launched a single European currency: the euro. One of the EU's main goals is to promote human rights both internally and around the world. Human dignity, freedom, democracy, equality, the rule of law and respect for human rights: these are the core values of the EU.

Government of Sindh (GoS) through the Planning and Development Department (PDD) is implementing a six-year multi-sectoral Sindh Accelerated Action Plan for Reduction of Stunting and Malnutrition (AAP), with the objective of reducing stunting rate from the existing 48 percent to 40 percent by 2021.

The European Union (EU), under the EU Commission Action Plan on Nutrition 2014, is supporting GoS in addressing the issue of malnutrition. The EU has approved the Programme for Improved Nutrition in Sindh (PINS) to be implemented in ten districts of Sindh which include Shikarpur, Thatta, Kambar Shahdadkot, Larkana, Dadu, Jamshoro, Matiari, Sajawal, Tando Allahyar and Tando Muhammad Khan.

RSPN is leading the PINS Expected Results (ER) 3 component with four partners: Action Against Hunger, National Rural Support Programme (NRSP), Sindh Rural Support Organisation (SRSO) and Thardeep Rural Development Programme (TRDP). This component includes nutrition sensitive interventions i.e. Water Sanitation and Hygiene (WASH) and Agriculture & Food Security (AFS).
