

# WEARING A FACE MASK

WILL PROTECT US

AND STOP TRANSMISSION OF COVID-19

## Why Wear a Mask

A properly worn mask creates a necessary barrier and shield between those who may be infected and those who are not.

## How to Wear a Mask

A properly worn mask should cover the nose, mouth and chin

Wash your hands with water and soap or use a hand sanitizer before wearing and after removing the mask

## How Not to Wear a Mask

Examples of improper use of a mask

Wearing your mask improperly will put yourself and others at risk of being infected by COVID-19

## When to Wear a Mask

When you are in public places

When you are feeling unwell or taking care of a sick person

## How to Care for the Mask

**SURGICAL MASKS** are temporary and should be disposed of properly after use.

There are two types of masks:

**CLOTH MASKS** are made from fabric and must be washed daily with water and soap.

## PLEASE REMEMBER:

When the other person is wearing a mask, they are also doing it to protect YOU.

It's everyone's responsibility to protect each other
