

The recent monsoon rains have affected different parts of the country. According to NDMA, over 3.1 million people are affected in 116 districts across Pakistan. Moreover, other than over 900 deaths; damages to roads, bridges, shops, crops, livestock, schools, health facilities and houses have been reported. Over 500,000 houses have been damaged (either fully or partially). The Ministry of Climate Change and NDMA have warned about more rains during August 2022 and onwards.

## » Assessment of Damages by NRSP

Upon request of the local government authorities, NRSP is conducting need assessments through the help of community institutions across the country where it is present, in order to respond to the needs of the communities adversely affected by the floods. The initial review of these assessments reported that the heavy rains and floods have badly affected 422,000 households in 416 union councils of 16 districts across the Country.
